

Environmental Policy

Prevent Pollution

Understand Procedures

Manage Legal and Other Requirements

Peerless Environmental Improvement

Peerless Pump Company's Indianapolis Facility shall conduct itself in a responsible manner to ensure its continued success and profitability. As part of this overall plan, we commit to protect the environment in which our employees work in addition to the environment of the communities in which we operate. We shall accomplish these commitments through the following:

1. We shall commit to the prevention of pollution.
2. We shall establish an Environmental Management System and continually improve it.
3. We recognize that the waste of energy and raw materials is detrimental to the environment and counter productive to our business goal of profitability, therefore we shall manage resources efficiently.
4. We shall commit to operate in compliance with relevant environmental legislation and regulations.
5. In addition, we shall establish and review our environmental objectives and targets.
