Peerless Employees Share Their Success With Gleaners

Helping is Becoming a Habit for Local Pump Manufacturer

Indianapolis, IN — 12/12/2008 — Near the holidays each year Indianapolis based Peerless Pump Company has – as a small token of appreciation – given each employee a small financial gift to help with their Christmas. But in 2008 Peerless, as it completes another record year of performance, understanding that given the current state of the economy not all are as fortunate as Peerless employees, has chosen to give up their employee gifts and donate the money to Gleaners Food Bank.

As a result of this decision by the Peerless team, Peerless President and CEO Dean Douglas today presented Gleaners CEO Pamela Altmeyer with a check for \$7,500. "It is often done quietly, but everyone associated with Peerless really steps-up for a good cause," said Douglas. "From helping the families of our sister-company who were affected by this summer's hurricanes, to another successful Camp Riley benefit, 2008 only confirmed what type of people we always knew were here at Peerless'" Douglas added.

"It is a great feeling to be in a position to help out the local community," said Fred Bock, Vice President of Marketing at Peerless. "Having raised nearly \$300,000 over nine years for Camp Riley, we are excited to start a relationship with Gleaners and look forward to helping out more in the future" Bock added.

A well kept secret in Indianapolis manufacturing, Peerless designs and builds industrial pumps and employs nearly 300 people locally and more than 450 throughout the world.

A part of the Grundfos Group of Companies, Peerless Pump Company is a global leader in fluid handling systems. Based in Indianapolis, Indiana, Peerless has facilities throughout North America and the world. Serving the pump industry for more than 85-years, Peerless serves many markets including fire protection, municipal, commercial, and agriculture. More information about Peerless and Grundfos products can be viewed at the company websites: www.peerlesspump.com and www.grundfos.com
